## Application \* Process

Once you decide that you wish for your child to secure a place at Mission Heights Primary School, there are a few steps to follow with regards to the application process.

Contact our lovely administration team to request an information pack. Read carefully through the pack which outlines the documents that need to be sent for us to consider your child's application.

Please provide copies of your child's latest school report and a short video explaining what he/she hopes to achieve while studying at MHP. A few words in English would be a great addition.

Once we receive all necessary documents, we will review your application. The Principal considers each application on its own merits and circumstances.

Once your application has been successful, you will receive an offer of place. This offer of place will enable you to apply for a study visa with Immigration NZ.

Ready?

Forward a copy of your child's study visa as well as Health & Travel Insurance.
